LETTERS SENT BY THE DIRECTOR AND THE SUPERINDENTENT OF THE MINT, 1866-1900

1893 - 1897

Box 31 NC-152 Entry 6

MANN'S

PARCHMENT COPYING PAPER.

(TRADE-MARK REGISTERED.)

This Parchment Paper is **MUCH STRONGER** and shows a **CLEARER COPY**, than any other ever made for the purpose. The Ink is **LESS LIABLE TO SPREAD,** and can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then, with brush, wet the leaf. Take off surplus water with another sheet of blotting-paper; then place the written letter on the leaf, (leaving the blotting-paper under the leaf to take up any excess of water that may yet remain,) place it in the press, and in 10 or 15 seconds a perfect copy will be secured.

The leaves WILL DRY AS SMOOTH AS SILK by placing the book in the Press after Copying.

☞Place the oil sheets between the copies just made, to prevent blending or setting-off.

Another way, when many Letters are Copied.

Procure a tin or iron box with lid to hold 20 blotting pads.—(Boxes furnished if desired.)

Dip half the lot of blotters in water, let them drain off a few moments; then place a dry blotter between each wet one, give them a few minutes' squeeze in Press and they will remain wet for three days; then take an oil sheet, place it to the left; then lay a wet blotter; then turn leaf of Copying over on blotter; then lay your letter on; then another oil sheet and so on, and you can copy all your letters at one time, thereby saving time. With a little care and experience as to wetting at first you will be so well pleased, as never to go back to old way.

→Hill's Blotter Baths are the best known for this mode.←

Hon E O Baldwin
Comptroller Treasury Department
Sir

I am in receipt of yours of the 14th making further inquiry in regard to the Cabinet silver Medals in report of Dec 31/1894 and also of copper purchased in the same quarter. In reply I beg to state that the silver Cabinet Medals were bought from the Coiner with the Medal fund and charged to the Medal fund account as per will see upon examination of Medal report No 1 for the quarter ending Dec 31/1894 wherein we have on hand in Medals $33.33 Received from Coiner during the quarter 37.72 in silver and bronze Medals in which there $21.90 for silver Cabinet Medals are included increasing the account $671.05 and

2

The Mint of the United States at Philadelphia,
Superintendent's Office,

_____, 189

when medals are sold the cost of material is taken from the account, and all Monies received are accounted for in the cash account both the cost of material and profit on each medal the same is true of the copper when the medals are sold. The National Medals have a fixed price calculated to cover the cost of the material and striking and when sold the whole amount goes into the cash account. The cost of material for private bronze medals is calculated at one cent per ounce in addition to the charges for striking and is accounted for in the the cash account. In the buying and reporting of copper we have been following the precedent that has been continued (so far as I know) from the first striking of Medals you will observe that I do not charge any

_____, 189

self with the $2.35 profit each on five Medals because ~~the cost~~ out of the 6 Medals the metal for which I paid the Coiner $21.90 only one has been sold; the rest (5) were on hand on the 31st Dec 1894 trusting that this will be satisfactory in explanation if not satisfactory will you kindly explain more fully and I will endeavor to correct the same

Very respectfully
Eugene Townsend (Signed)
Late Superintendent
